COTTAGE GARDENS NURSERIES

(OF EUREKA, CAL.)

WHOLESALE PRICE LIST 1918-1919

FOR THE TRADE ONLY

SALES HEADQUARTERS

SAN JOSE, CAL.

TERMS AND CONDITIONS

(Please read carefully)

Prices herein are strictly net and to the trade only. This is a wholesale list and while we are perfectly willing to fill small scattering orders, we shall have to charge 25% above these prices for the extra labor involved.

Rates apply as follows: If only one price is quoted it is a "flat rate" regardless of quantity. Where a second price is quoted the order must call for 50 or more of that particular item to get the lower rate. No exceptions.

Terms to customers of approved credit are 60 days from date of invoice, or 2% for cash in 10 days. Buyers unknown to us will please send remittance with order or give bank or trade reference. If C. O. D. shipment is wanted send one-third of amount with order.

Point of Shipment. All stock offered will be supplied from San Jose at these rates except that where we also have the desired stock at Eureka and it is to the buyer's advantage to do so, we will ship direct from there by water.

Transportation. Please state whether to ship by express, freight or water, otherwise we will use our best judgment.

Packing is charged for at cost of material.

Claims. All goods travel at buyer's risk and our receipt from transportation company is to be held as evidence of satisfactory condition at that time. Before receiving for shipment examine it to see if in apparently good shape. If injured in transit memorandum should be made on freight bill and claim filed with transportation company. If there is any complaint as to shortage, grade or quality of goods it must be made within ten days after goods arrive. Otherwise it will be assumed that shipment is accepted as satisfactory. Any goods not up to representation may be returned at once.

Previous Quotations are hereby cancelled. Dated January 1, 1919.

SAN JOSE BRANCH

Located on State Highway from San Jose to Oakland near Coyote Creek Bridge. Sales headquarters for Pacific Coast. Extensive lath houses enable us to carry in stock a large assortment of Eureka grown stock. Deciduous trees and shrubs are grown here. Customers in San Francisco Bay region are cordially invited to visit this branch and make their selections.

IMPORTANT

All correspondence, inquiries and orders should be sent to Box 543, San Jose, California, as all sales are now handled through San Jose Branch.

These Hollies are not berried on account of the vigorous growth they have made in the favoring Eureka climate. They are however self fertile and can be depended upon to bear even without the presence of seedling plants for pollination. It is all grafted stock; we do not sell seedling Hollies as they cannot be counted on to bear berries.

ROSES

We specialize in latest introductions and recent novelties. All stock is budded. Contrary to the practice of most growers, we grade our roses. Those offered below as No. 2 are by no means culs,—they are good in every way, but are lighter than the No. 1 stock. They are particularly good for potting to grow on for summer sales.

Owing to lack of space no descriptions are given here, but we shall be glad to furnish particulars about any new varieties on request.

Do not use this list after February 1st. A revised list will be mailed to you about that date showing stock then.
